Alzheimer's Association National Online Survey
Interview Schedule

October 20 – November 2, 2021   Project #: 210286

N=1,000 Registered Voters Nationally   N=400 Registered Voters in Select States
Credibility Interval: +3.53%   Credibility Interval: +5.59%

- *This survey was conducted among N=1,000 registered voters nationwide. In addition to the national sample of registered voters we also conducted an oversample to reach N=400 registered voters across Arizona, Florida, Georgia, Nevada, New Hampshire, Ohio, Pennsylvania, and Wisconsin.*

- *The national data among N=1,000 registered voters is labeled "NAT'L" in this document and the oversample of registered voters in Arizona, Florida, Georgia, Nevada, New Hampshire, Ohio, Pennsylvania, and Wisconsin is labeled "STATES".*

- *An asterisk (*) in a response category means that less than 0.5% of respondents chose that response category and a dash (–) represents no response.*

- *"Asked is the percentage of respondents from each survey population that are asked a question because they meet a criteria based on a response to a previous question, meaning not all respondents received that question.*

- *"All" is the percentage of the total sample, that is N=1,000 registered voters nationally or N=400 registered voters in Arizona, Florida, Georgia, Nevada, New Hampshire, Ohio, Pennsylvania, and Wisconsin.*

For the below list of diseases, please indicate how knowledgeable you would say you are about each one. For each, would you say that you are very familiar, somewhat familiar, not too familiar, or not at all familiar? **(RANDOMIZE)**

RANKED BY %TOTAL FAMILIAR NATIONALLY

(IF Q9:1-2 / AWARE OF FDA APPROVAL) (N=334 NAT'L / N=129 STATES)

16.   And, what one word or short phrase would you use to describe how you feel about having this new drug Aduhelm available as an effective treatment for early stage Alzheimer's Disease?
SEE VERBATIM RESPONSES

---

17.   Now, just so everyone has the same information, Aduhelm is a new drug that received accelerated approval from the Food and Drug Administration (FDA) in June of this year. The treatment, while not a cure, will be prescribed to reduce the clinical decline of people with mild cognitive impairment (MCI) or mild dementia stage of Alzheimer's disease.

Having learned this, do you support or oppose the federal government covering the cost of Aduhelm for patients covered by Medicare, that is, the federal government health program for those over 65 years old?

(IF SUPPORT/OPPOSE, ASK) And do you strongly (support/oppose) or only somewhat (support/oppose) the federal government covering the cost of Aduhelm for patients covered by Medicare?

NAT'L	STATES	
94%	*94%*	*TOTAL SUPPORT*
6%	*6%*	*TOTAL OPPOSE*
76%	74%	Strongly Support
18%	20%	Somewhat Support
4%	5%	Somewhat Oppose
2%	1%	Strongly Oppose

---

18.   **(SAMPLE A) (ASK IF Q17:1-2 / SUPPORT CMS APPROVAL) (N=470 NAT'L / N=186 STATES)** And, based on what you now know, what is the main reason you support the federal government covering the cost of Aduhelm for patients covered by Medicare?

SEE VERBATIM RESPONSES

---

19.   **(SAMPLE A) (ASK IF Q17:3-4 / OPPOSE CMS APPROVAL) (N=30 NAT'L / N=12 STATES)** And, based on what you now know, what is the main reason you oppose the federal government covering the cost of Aduhelm for patients covered by Medicare?

SEE VERBATIM RESPONSES

20.　　**(SAMPLE A)** Aduhelm is the first medication approved to treat and delay the symptoms of Alzheimer's disease and will cost roughly $56,000 per patient each year. Most people with Alzheimer's disease are covered by Medicare. If Medicare does not cover Aduhelm, patients on Medicare would have to pay a substantial amount of this cost themselves. Knowing this information, would you support or oppose the federal government covering the cost of Aduhelm when prescribed by a physician for patients covered by Medicare?

　　　　(IF SUPPORT/OPPOSE, ASK) And do you strongly (support/oppose) or only somewhat (support/oppose) the federal government covering the cost of Aduhelm for patients covered by Medicare?

NAT'L	STATES	
87%	*88%*	*TOTAL SUPPORT*
13%	*12%*	*TOTAL OPPOSE*
72%	73%	Strongly Support
15%	15%	Somewhat Support
9%	6%	Somewhat Oppose
4%	6%	Strongly Oppose

21.　　**(SAMPLE B)** Aduhelm is the first medication approved to treat and delay the symptoms of Alzheimer's disease and will cost roughly $56,000 per patient each year. Most people with Alzheimer's disease are covered by Medicare. Knowing this information, would you support or oppose the federal government covering the cost of Aduhelm when prescribed by a physician for patients covered by Medicare?

　　　　(IF SUPPORT/OPPOSE, ASK) And do you strongly (support/oppose) or only somewhat (support/oppose) the federal government covering the cost of Aduhelm for patients covered by Medicare?

NAT'L	STATES	
84%	*84%*	*TOTAL SUPPORT*
16%	*16%*	*TOTAL OPPOSE*
65%	62%	Strongly Support
19%	22%	Somewhat Support
11%	13%	Somewhat Oppose
5%	3%	Strongly Oppose

22.   And, do you support or oppose private health insurers covering the cost of Aduhelm when prescribed by a physician for patients covered by private health insurance?

(IF SUPPORT/OPPOSE, ASK) And do you strongly (support/oppose) or only somewhat (support/oppose) private health insurers covering the cost of Aduhelm for patients covered by private health insurance?

NAT'L	STATES	
92%	*93%*	*TOTAL SUPPORT*
8%	*7%*	*TOTAL OPPOSE*
75%	73%	Strongly Support
17%	20%	Somewhat Support
6%	5%	Somewhat Oppose
2%	2%	Strongly Oppose

(SAMPLE E) (IF Q17:3-4 & Q22:1-2 / OPPOSE CMS COVERAGE AND SUPPORT PRIVATE COVERAGE) (N=10 NAT'L / N=6 STATES)

23.   And what are some of the reasons you think private health insurers SHOULD cover the cost of Aduhelm for patients with private health insurance but that the federal government should NOT cover the costs for patients with Medicare?

SEE VERBATIM RESPONSES

(ROTATE SUPPORT/OPPOSE MESSAGES AS BLOCKS)
Below are some statements you could hear in SUPPORT of the federal government covering the cost of Aduhelm for patients covered by Medicare. For each one, please indicate if that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to SUPPORT the federal government covering the cost of Aduhelm for patients covered by Medicare. **(RANDOMIZE)**

RANKED BY %VERY CONVINCING NATIONALLY

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing

26. People with Alzheimer's, a fatal disease, deserve the same access to treatments as those with cancer, HIV/AIDS, multiple sclerosis (MS) and heart disease. The nature of the disease is no excuse to allow discrimination against those who have it—and their families.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	53%	32%	10%	5%
	85%		*15%*	
STATES	54%	30%	12%	4%
	84%		*16%*	

30. If Medicare covers this treatment it could actually save money. Alzheimer's is one of the most expensive diseases in the U.S. today because its patients need expensive care. Slowing Alzheimer's disease would let people live independently longer, reducing the need for costly support.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	51%	36%	9%	4%
	87%		*13%*	
STATES	50%	37%	10%	3%
	87%		*13%*	

25. This treatment can give those with Alzheimer's more time with their loved ones, more independence, and better health. Everyone facing this devastating, fatal disease deserves this opportunity.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	51%	35%	10%	4%
	86%		*14%*	
STATES	49%	36%	13%	2%
	85%		*15%*	

24. For people with Alzheimer's, like those with cancer, treatment delays hurt patients. With Alzheimer's, delays destroy brain cells—memory and thinking abilities they will never get back. Medicare should cover Alzheimer's treatments, as they do for cancer.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	50%	37%	9%	4%
	87%		*13%*	
STATES	49%	35%	12%	4%
	84%		*16%*	

Continued…

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing

29.   This is the first drug that targets the underlying disease of Alzheimer's and not just its symptoms, and the results are promising. This is why many doctors, scientists, and patient advocacy groups including the Alzheimer's Association strongly support Medicare paying for patients to receive this treatment.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	48%	39%	10%	3%
	87%		*13%*	
STATES	44%	42%	11%	3%
	86%		*14%*	

28.   Medicare paying for patients to get the first ever disease-changing treatment could be the beginning of the end of Alzheimer's. Medicare covering a first breakthrough drug forever changed cancer, HIV/AIDS, and heart disease. More Alzheimer's drugs are already in development. If Aduhelm is covered by Medicare, companies will likely push to develop more Alzheimer's drugs. But, if this early treatment is denied coverage under Medicare, development of new drugs could be set back for years, hurting everyone affected today—and in the future.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	48%	37%	10%	5%
	85%		*15%*	
STATES	45%	38%	13%	4%
	83%		*17%*	

27.   Alzheimer's is terrible. A few loud voices opposing Medicare coverage for these treatments are out of touch with the crushing daily realities of living with Alzheimer's for those who have it—and their families. Americans deserve the ability to make informed decisions about their own treatment and care.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	46%	34%	15%	5%
	80%		*20%*	
STATES	44%	34%	18%	4%
	78%		*22%*	

31.   The FDA's scientists approved Aduhelm because they believe it is effective, because Alzheimer's disease is so devastating, and because those with Alzheimer's deserve to have at least one treatment available to them that may delay the progression of this disease. It is the FDA's job to approve drugs and therapies and it is Medicare's job to pay for those approved treatments.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
NAT'L	44%	39%	13%	4%
	83%		*17%*

	82%		*18%*	

Below are some statements you could hear in OPPOSITION to the federal government covering the cost of Aduhelm for patients covered by Medicare. For each one, please indicate if that statement is very convincing, somewhat convincing, not too convincing or not at all convincing as a reason to OPPOSE the federal government covering the cost of Aduhelm for patients covered by Medicare. **(RANDOMIZE)**

RANKED BY %VERY CONVINCING NATIONALLY

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing

32. Medicare paying for patients to take this $56,000 drug would add to our nation's already enormous health care costs. It would give the prescription drug industry a blank check to set prices this high in the future. Even if a fraction of American seniors with Alzheimer's take this drug, Medicare's drug spending could increase by more than $50 billion each year. We simply cannot allow drug companies to set prices like this and have taxpayers pick up the bill.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing

	68%		*32%*	
STATES	31%	36%	21%	12%
	67%		*33%*	

33. This drug has not gone through the usual clinical trial process to determine if it works and if it is safe. This is why many health care experts disagree with the FDA's decision to approve this drug. The FDA's own advisory committee of outside medical experts strongly recommended against approval, and two of the Most prominent hospital systems in America have refused to offer the drug because they believe it has not been properly tested.

	Very Convincing	Somewhat Convincing	Not too Convincing	Not at all Convincing
